Le support de fixation campingcar

The mounting bracket for Campervans

El soporte de fijación especial campervan

Cher client, nous vous remercions pour votre achat de l'un de nos produits Uniteck. Veuillez lire avec attention toutes les instructions avant d'utiliser le produit.

Le support Unifix 1C est destiné exclusivement à la fixation de vos panneaux Unisun. Il a été conçu pour être utilisé sur une surface plane (ex : toit de camping-car, mobile home, péniche...).

CONSIGNES DE SÉCURITÉ

- Prenez les mesures appropriées pour prévenir les accidents pendant vos travaux de montage.
- Si le support et le matériel de montage sont exposés aux rayons du soleil pendant une longue période, il y a un risque de brûlure. Protégez-vous.
- A la fin des travaux, vérifiez que vos supports et panneaux soient bien fixés

UNIFIX - COMPOSITION

Éléments fournis

				
x4	x4	D5 x12	D5 x12	M5 x12
				
x1 colle	x1 dégraissant			

Prévoir pour le montage, un chiffon légèrement humide

Pour les étapes de nettoyage avant collage : utilisez uniquement un chiffon humide et le dégraissant fourni. Ne pas utiliser d'alcool/ de white spirit.

Respectez 4 heures de temps de séchage. Ne pas bouger ou manipuler pendant cette période

UNIFIX - FIXATION PANNEAU

Votre

UNIFIX - FIXATION PANNEAU (SUITE)

- Posez à blanc (sans colle) votre panneau à l'endroit souhaité.

- Réalisez un marquage autour des supports pour visualiser le positionnement des supports.

- Enlevez vos angles du panneau, puis appliquez la colle sur vos 4 supports comme indiquée en blanc sur le visuel

- Repositionnez les supports sur les marquages préalablement réalisés. Réalisez une pression brève de haut en bas.

Respectez 4 heures de temps de séchage. Ne pas bouger ou manipuler pendant cette période.

Pendant ce temps d'attente, vous pouvez réaliser la pose du passe toit. (produit non inclus, cf partie passe-toit)

UNIFIX - FIXATION PANNEAU (SUITE)

- Positionnez le panneau sur les angles de fixation.

- Fixez les 4 dessus d'angle sur les supports grâce aux rondelles plates, rondelles grower et écrous borgnes.

		
D5 X4	D5 X4	M5 X4

COLLAGE DU PASSE-TOIT (PRODUIT NON INCLUS)

- Fermez le capot grâce aux 2 vis plastiques.

- Raccordez les connecteurs entre eux. (Pas de risque d'erreur, les connecteurs sont polarisés).

Dear customer, thank you for purchasing one of our Uniteck products. Please read all the instructions carefully and thoroughly before using the product.

The Unifx 1C mounting bracket is designed to fix your Unisun panels only. It has been designed to be used on a flat surface (ex.: campervan roof, houseboat).

SAFETY INSTRUCTIONS

- Take the appropriate mesures to prevent accidents during your mounting steps.
- If the bracket and the mounting tools are exposed to sunlight for a long period, there is a risk of getting burnt. Make sure to protect yourself accordingly.
- When finished, check and ensure that all of your brackets and panels are fixed properly.

UNIFIX - COMPOSITION

Provided elements

				
x4	x4	D5 x12	D5 x12	M5 x12
x1 glue	X1 degreaser			

For the mounting, make sure you have a slightly wet cloth.

For the preparation of the surface before gluing the brackets: only use a wet cloth and the degreaser provided. Do not

UNIFIX – PANEL FIXING

Your surface must be cleaned, dried, without grease or dust. Beforehand, clean the surface with a wet cloth (not provided), then let it dry for a few minutes (do not use alcohol/white spirit).

- Fix the 4 brackets on your panel

- Clean the bottom of the brackets (area that will get glued) with the degreaser provided (do not use alcohol/white spirit...).

UNIFIX – PANEL FIXING

- Place your panel in the desired position (without glueing)

- Place a mark around the brackets to visualise the mounting zone

- Remove the angles from your panel then Put the glue on your 4 brackets as indicated in white on the picture

- Place the brackets on the previously marked surfaces. Press briefly down on the brackets.

Respect 4 hours of drying time. Do not move or manipulate during this period.

During this waiting time, you can fix the roof pass (cf roof pass part).

UNIFIX – PANEL FIXING

- Put the panel on the fixing angles.

- Fix the 4 upper parts of the angles on the brackets using the flat washers, the lock washers and the cap nuts

		
D5 X4	D5 X4	M5 X4

ROOF PASS FIXING (PRODUCT NOT INCLUDED)

- Close the cover with the 2 plastic screws

- Connect the connectors between them. (No risk of error, connectors are polarized).

Estimado cliente, gracias por comprar nuestro producto Uniteck. Por favor lea con cuidado todas las instrucciones antes de usar el producto.

El soporte Unifix 1C está concebido únicamente a la fijación de sus paneles Unisun. Está previsto para estar usado sobre una superficie plana (ej: tejado de autocaravana, casa móvil, barcaza...).

CONSIGNAS DE SEGURIDAD

- Tome las medidas apropiadas para prevenir los accidentes durante sus trabajos de montaje.
- Si el soporte y equipamiento de montaje están expuestos a los rayos del sol durante una larga duración, hay un riesgo de quemadura. Protéjase.
- En fin de los trabajos, verifique que sus soportes y paneles están bien fijados.

UNIFIX - COMPOSICIÓN

Elementos provistos

				
x4	x4	D5 x12	D5 x12	M5 x12
				
x1 Pegamento Ska	X1 desengresante			

Pever para el montaje un trapo ligeramente húmedo.

Para las etapas de limpieza antes de pegar: use únicamente un trapo suave y el desengresante provisto. No use alcohol/aguarrás...
 Respete 4 horas de duración de secado. No mueva o manipule durante este periodo

UNIFIX – FIJACIÓN DEL PANEL

Su superficie debe estar limpia, seca, sin grasa y sin polvo. Limpie previamente la superficie con un trapo húmedo (no provisto), y después deje secas algunos minutos (no use alcohol o aguarrás).

- Fije los 4 soportes Unifix sobre su panel.

- Limpie la zona de colocación de sus soportes con el desengrasante provisto (no use alcohol, aguarrás....).

UNIFIX – FIJACIÓN DEL PANEL

- Coloque su panel sin pegamento al lugar deseado

- Realice una marcacion alrededor de los soportes para visualizar el posicionamiento de los soportes.

- Quite los angulos del panel, despues Aplique el pegamento sobre sus 4 soportes en la zona indicada en blanco en la imagen

- Coloque de nuevo los soportes sobre las marcaciones previamente realizados. Realice una presión breve desde abajo hasta arriba.

Respete 4 horas de tiempo de secado. No mueva o manipule los elementos durante este periodo.

Durante este tiempo de espera, realiza la colocación del pasatecho.
(producto no incluido, cf parte paso del tejado)

UNIFIX – FIJACIÓN DEL PANEL

- Posicione el panel sobre los angulos de fijación.

- Fije las 4 parte superiores de los angulos sobre los soportes gracias a las 4 arandelas platas, rondelas grower y tuercas de sombrerete.

		
D5 X4	D5 X4	M5 X4

INSTALACIÓN DEL PASO DEL TEJADO (PRODUCTO NO INCLUIDO)

- Agujeree el tabique con una sierra de corona. Diámetro incluso entre 15 y 20mm

- Limpie la zona de colocación con el desengrasante provisto (no usar alcohol o aguarrás).

- Aplique el pegamento provisto sobre la zona indicada en blanco en la imagen más abajo, y después colóquelo en el lugar de la perforación.

- Pase los cables. Conserve una longitud suficiente para su cableado. Apriete las tuercas del prensaestopas para asegurar la impermeabilidad.

INSTALACIÓN DEL PASO DEL TEJADO (PRODUCTO NO INCLUIDO)

- Cierre la t
